Objective

Currently having an overall experience of 2 years. Seeking a role as a front-end developer so I can use my thorough knowledge of programming frameworks and development software to contribute to the success of the organization.

Skills

JavaScript, TypeScript, REST, JSON, DOM, Bootstrap, HTML5, CSS3, Node.js, Express.js, RESTful APIs, GSAP, Agile Scrum Master
Framework- React.js, Next.js, Redux, MongoDB

Certification

HTML | JAVASCRIPT | Full Stack Developer (mern) | Agile Scrum Master

Experience

Frontend Developer   **1 Click capital**   **06/2022 - 08/2023**

Worked as a front-end developer, analyzing requirements, designing, and integrating corporate websites. Experienced in using GSAP animations with CSS classes. Implemented improvements in web responsiveness and functionality; performed testing and validation. Designed interfaces for mobile, desktop, and tablets. Developed reusable code to minimize project costs. Integrated and consumed RESTful APIs for seamless data interactions. Participated in pre-project analysis and technical assessments to ensure user-friendly interfaces. Collaborated with designers to implement website concepts and designs. Was awarded **Best Employee of the Month (Nov-Dec 2022)**

Trainee Frontend Developer   **Stalwart Technocrats**   **05/2021 - 05/2022**

As a Trainee Frontend Developer, I contributed to creating websites using HTML, CSS, and JavaScript. My responsibilities included developing user interfaces, implementing responsive design, and ensuring cross-browser compatibility. This role allowed me to enhance my skills in web development and collaborate with senior developers to deliver high-quality, visually appealing, and functional websites.

Freelance Web Developer

Creating websites for clients with highly motivated Freelance Web Developers with years of experience designing and developing dynamic and visually appealing websites. http://razasofttech.com/

Education
BSc. Information Technology - SM Shetty College 2020

Projects

Mern Auth - This is a full-stack web application built with the MERN (MongoDB, Express, React, Node.js) stack. It includes authentication features that allow users to sign up, log in, and log out and provides access to protected routes only for authenticated users. https://mern-stack-auth-jdh2.onrender.com

AI content writer - AI content generation using OpenAI API, creates specific content for the website, and can be used by Seo, content writers. The prompt was specifically given for different searches so that users wouldn't have to give long and in-depth descriptions of what they were looking for, instead short description would provide them accurate results. github.com/SanaPawaskar/ai- content-writer

Photo-Prism - This is a Multi-Vendor Photo marketplace with a Razor-pay Payment gateway. github.com/SanaPawaskar/Photo_Prism

Java encryption app - Encryption and decryption app in which one can upload a file and save it, the uploaded file will be saved in encrypted format.
